CONGRESS OF THE UNITED STATES  
Joint Committee on Printing  
Washington

May 1, 1955

Dear Colonel:

In keeping with the policy established during the past few years, the Joint Committee on Printing again requests your participation in the annual revision of its regulations and invites your suggestions and recommendations relative to "Government Printing and Binding Regulations No. 8" to be issued on or about July 1, 1955.

We have had numerous inquiries regarding the proper formula to use in arriving at the value and/or depreciation of equipment and would appreciate your views as to the best solution to this problem.

At the same time please supply the committee with a complete, up-to-date alphabetical list of the authorized printing plants under your jurisdiction, together with the correct name, location, and classification of each plant. Also, advise us of the number of copies of the new regulations which will be necessary to cover the total required distribution within your establishment.

The committee appreciates your cooperative response to its past invitations for suggestions and is looking forward to your recommendations this year. We will appreciate hearing from you not later than June 1, 1955.

Sincerely,

JAMES L. HARRISON (signed)
